Long-term care and support of BYODs:

- Students are solely responsible for repair and maintenance of their own device. It is not the school's responsibility.
- Warranties: Students should understand the limitations of the manufacturer's warranty on their BYOD, both in duration and in coverage. Under Australian consumer legislation, warranties usually last for one year. During this period any manufacturing defects will be repaired or the device will be replaced (as per the specific terms and conditions of the manufacturer).
- Extended warranties: At the time of purchase, students may also purchase an optional extended warranty (past the standard warranty period) from the supplier/manufacturer
